PURPOSE

In accordance with Ordinance No.1041 , the Planning Commission is tasked with providing the City Council with a recommendation on the top rated Use Permits that have been filed to establish a Medical/Adult Recreation Cannabis Facility within the City of Seaside.

RECOMMENDATION

City staff recommends that the Planning Commission forward the following sites as being the top three rated applicants to receive a Medical/Adult Recreation Cannabis Facility Use Permit:

1. Higher Level of Care, 310 Amador Avenue (See Draft Resolution provided as Attachment 1); and
2. Sugarleaf/Pharm House, 778 Broadway Avenue (See Draft Resolution provided as Attachment 3)
3. Canopy, 1900 Fremont Boulevard (See Draft Resolution provided as Attachment 5).

BACKGROUND

On September 21, 2017, the City Council adopted Ordinance No. 1041 which established and defined the terms of the City's Cannabis activities. The Ordinance states that one year use permits may be issued for no more than 3 applicants in the following zones: CRG, MX, CMX

and future Mixed-Use High and Mixed-Use Low. Applicants must have complete information, and be rated for points on: location of business, business plan, local enterprise and community benefits, neighborhood compatibility, safety and security plan. On November 21, the City of Seaside received 17 applications - one applicant had two locations. Applications were rated based on the ordinance criteria. Since the community's interests are served in having strong and sustainable permit holders, the City allowed applicants the opportunity to amend and combine their applications, which is also specified in the ordinance. A copy of the rating sheet with application scores is in Attachment 1. The complete applications, which have been redacted to remove personal and security information, are available for review at the following link: <http://www.ci.seaside.ca.us/633/Cannabis-Dispensaries-Permits>.

During the week of scoring applications, staff was gathering information about how to handle gross sales, which on some applications appeared to be unreasonable. Those applications contain an * on the rating spreadsheet. These were deemed unreasonable because, using an example cited by the finance team, if every man, woman and child on the Monterey Peninsula bought over \$100 of cannabis products every year, the gross sales were still higher. The finance team instead proposed a gross sales cap of \$4 million. The \$4 million figure was derived two ways.

- Assuming a retail sales area measured 2,000 SF multiplied by \$2,000 sales per SF results in \$4 million. While not all applications provided retail sales area measurements, the best determination was that it approximated 2,000 SF.
- The \$2,000 sales per SF was derived as an average based on regional sampling. The CA Board of Equalization states medical cannabis sales are over \$1 billion and Monterey County sales are \$11.5 million. Double that to factor in adult recreational sales, and it becomes \$23 million. Divide that across 6 local which results in revenue of approximately \$3.8 million.

The gross sales cap of \$4 million was applied to all affected applicants. The COGS and capitalization was reconsidered for all affected applicants. Consistency in the procedure was maintained for all affected applicants.

Dispensaries must be located at least 1,000 feet apart from another dispensary and 600 feet from a school. The ordinance states that up to 3 medical and 3 adult recreational dispensary use permits may be issued in Seaside.

Applications have been carefully vetted by the Seaside Police to ensure security. The three applicants recommended received exemplary ratings from the Seaside Police for their security plans. Specific details of the security plans are limited to the Seaside Police to maximize public safety.

Summaries of the staff recommended applications follow and are in no particular order as the top 3 applications had the same scores.

1. Pharm House and Sugarleaf

Pharm House and Sugarleaf propose operating at 778 Broadway which is zoned MX. The

1,700 SF building includes an approximately 800 SF sales floor to be used as both a medical and adult recreational dispensary with hours of operation from 10 am to 10 pm daily. There are 4 parking spaces per 1,000 SF at both locations, and the requirement is 1 per 500 SF. Two principals and 8 additional employees are Seaside residents. Tenant improvements will be made on both the interior and exterior of 778 Broadway, with fewer improvements necessary at 840 Broadway. Signs will comply with 17.40. Neighboring businesses at both locations have demonstrated support. Community benefits include: 1% of profits or \$10k to parks and recreation; conducting annual food drives; and being active with local charities. This business is sufficiently capitalized for one year of operation and first year gross sales are projected to be \$4 million. The security plan for this application was deemed exemplary by the Seaside Police Department.

6. Location and Site Plans

Canopy Monterey Bay's proposed location at 1900 Fremont Blvd. in Seaside's Ord Terrace Neighborhood. The location is half a mile from the Fremont Blvd. exit ramp off of Highway 1. The building has ample space to accommodate dispensary operations including intake, processing, sales, patient services, security and administration. The proposed building is approximately 3,600 square feet. The proposed location will be a welcomed addition to the Ord Terrace Neighborhood. The building has been underutilized and in disrepair for quite some time, as seen in figures 1-3. This site location is not within a 600' radius of any public or private school providing instruction in kindergarten or grades 1-12. This satisfies the requirements of Seaside's ordinance #1041.
